**Reply to**

**Attn. of:** SERO Policy

November 19, 2003

**Subject:** Policy 210.10-37 Revised Listing of Food and Nutrition Service (FNS) Approved Enriched Macaroni Products with Fortified Protein

**To:** All State Directors  
National School Lunch Program (NSLP)  
Southeast Region

Recently, FNS sent out a revised copy of the most up-to-date list of Enriched Macaroni Products with Fortified Protein that meet FNS regulations. It has since been brought to our attention that folic acid was lacking from some of the approved products ingredient statements. Please note that the Enriched Wheat Macaroni Product with Fortified Protein made with Soy Isolate that is produced by Venice Maid Foods now lists folic acid in its ingredient statement. Please note also that Ateecok Inc. and Lucca Packing are no longer producing an Enriched Macaroni with Fortified Protein.

The current list of approved Enriched Macaroni Products with Fortified Protein with the noted revisions is attached. This rescinds memorandum 210.10-36. Products on this current list may be used to meet the meat alternate requirements as specified in the appendix A of the National School Lunch Program regulations. Please send copies to your School Foodservice Administrators so they may update their records. If you have any questions, please call my staff at (404) 562-7050.

PEGGY FOUTS  
Regional Director  
Special Nutrition Programs
